2. Develops and implements ADA student program policies, procedures and services.
3. Maintains confidential records and stays abreast of current knowledge of emerging issues in ADA and changes in ADA case law which would impact services for students in higher education.
4. Evaluates/compiles reports of ADA activities, services, and statistics.
5. Acts as ADA student liaison between faculty, staff, Facilities Services, Admissions, Counseling, etc.
6. Coordinates and administers ADA-related services to students with disabilities including note-taking services, auxiliary aides, reader services, scribe services, interpreter services, testing accommodations and ADA equipment services.
7. Consults with students about appropriate individualized accommodations based on documentation and processes accommodation requests for services based upon documentation of a disability.
8. Guides perspective students through the admissions process which includes receiving applications, placement test administration and interpretation, reviewing curriculum offerings, and providing essential information concerning the college's admission policies.
9. Provide personal and social counseling to students requesting such assistance and initiate referrals to other professional and agencies when appropriate.
10. Attend professional development activities as requested/approved by the VP for Student Services.
11. Participates in registration and orientation activities as assigned.
12. Accepts other duties as assigned.

Position Qualifications:

Knowledge, Skills and Abilities:

Understanding of and commitment to the unique nature and role of the college and the open door policy. Ability to understand the nature and needs of individuals at all levels of development.

Minimum Education and Experience:

Master's degree in counseling, or student development required, and experience providing disability services. National Board Certification or NC Registered Practicing Counselor Certification preferred. Knowledge of federal and state laws that guide the process of providing accommodations to postsecondary students with disabilities.

Basis for knowledge of job: ☐ hold job now; ☐ supervise job; ☐ other (explain)

Exposure Determination for Bloodborne Pathogens

All position descriptions, including administrative and support personnel, whether paid or volunteer, must be evaluated by the appropriate department chairman/head and a Risk of Exposure to Bloodborne Pathogens Classification I or II be assigned to the position as it applies to each employee's work location. In situations where jobs of the same title entail substantially different categories of risk based on the department to which assigned, job titles will be modified to include the unit name thereby creating a newer, more specific description for that position.

For jobs which fall into Classification II, a list of tasks or procedures which present an occupational exposure to those employees should be prepared and appended to the job description. Assignment of personnel to a new department in the same basic job may necessitate a formal change of job title to ensure that they will receive training according to that job's risk classification. This must be reviewed on an annual basis by department managers for all job titles which they supervise or manage.

_____ CLASSIFICATION I

This includes jobs in which required tasks routinely involve a potential for mucous membrane or skin contact with blood, body fluids, tissues or potential spills or splashes. Use of appropriate measures is required for every employee performing these tasks.

_____ CLASSIFICATION II

This includes jobs in which required tasks normally do not involve exposure to blood, body fluids or tissues, but may require performing unplanned Classification I tasks. In these jobs the normal work performance involves no exposure to blood, body fluids or tissues. However, exposure or potential exposure may be required as a condition of employment or class performance.

_____ PERSONNEL NOT COVERED BY THE STANDARD

This includes jobs in which required tasks involve no greater exposure to blood, body fluids, or tissues that would be encountered by a visitor. The normal work/class performance involves no exposure to blood, body fluids, or tissues that would be encountered by a visitor. The normal work/class performance involves no exposure to blood, body fluids, or tissues and the employee can decline to perform tasks which involve a perceived risk without retribution.

NOTE: All employees who do not fit into Classification I or II will fall into a third category not covered by the Standard.
