

Richmond Community College

Job Description

Position Title: Director of Program Development

General Description: The Director of Program Development, under the authority and supervision of the Dean of Applied Sciences and Engineering, is responsible for the management and creative development of non-credit /technical, instructional programming for the College. The Director will also coordinate program offerings with credit college faculty in order to maximize deliverables that meet customer need and demand. The director is responsible for pre-employment training, and third party credentialing. Program development and implementation is an essential component of this position.

Duties and Responsibilities of the Position:

1. Create short-term educational and training programs for students that incorporate industry recognized credentialing, certificate options, and clear pathways to employment.
2. Assume an entrepreneurial role in the development of occupational & technical, non-credit programming opportunities.
3. Identify qualified instructors for non-credit programming from the community and college service area and maintain that information in a database.
4. Develop, manage, and maintain programming budgets for selected program initiatives.
5. Assess market potential for new programming opportunities that may include E-Learning, web-based, and online learning solutions and assist in their development & deployment.
6. Assist in the development of marketing strategies for new programming.
7. Critically assess, evaluate, and revise non-credit course syllabi as required.
8. Work with all non-credit Directors, staff, and community to accurately assess the needs of the unemployed, under-employed, and dislocated workforce relative to Pre-Employment programming and provide training solutions.
9. Participate in assigned college committees.
10. Determine, order, and maintain supplies needed for program development.
11. Operational oversight of non-credit programs that do not have a full-time coordinator.

12. Accept other duties as assigned.

Position Qualifications:

Knowledge, Skills and Abilities:

A demonstrated understanding and commitment to the open door philosophy of the community college as well as a commitment to student learning is essential. Qualified applicants must have a demonstrated competence in the application and use of MS Office. A working knowledge of Moodle or similar LMS is beneficial. Additionally, applicants should have the ability to assess programming options relative to budget options in order to make strategic programming decisions. Qualified applicants must be able to function as a team member and work towards the fulfillment of the college mission and purpose. Applicants must possess skills in critical analysis, problem solving, and in independent decision-making. Organizational skills and multi-tasking are core elements of this position.

Minimum Education and Experience:

Bachelor's degree required preferably in Business/Industry Training & Development or related field. Master's degree preferred. A minimum of 3 years of progressive, management experience or equivalent is preferred and certification as a Certified Program Planner (CPP) is a plus. Experience in curriculum or program development is desired.

Basis for knowledge of job: ☐ hold job now; ☐ supervise job; ☐ other (explain)

Exposure Determination for Bloodborne Pathogens

All position descriptions, including administrative and support personnel, whether paid or volunteer, must be evaluated by the appropriate department chairman/head and a Risk of Exposure to Bloodborne Pathogens Classification I or II be assigned to the position as it applies to each employee's work location. In situations where jobs of the same title entail substantially different categories of risk based on the department to which assigned, job titles will be modified to include the unit name thereby creating a newer, more specific description for that position.

For jobs which fall into Classification II, a list of tasks or procedures which present an occupational exposure to those employees should be prepared and appended to the job description. Assignment of personnel to a new department in the same basic job may necessitate a formal change of job title to ensure that they will receive training according to that job's risk classification. This must be reviewed on an annual basis by department managers for all job titles which they supervise or manage.

_____ CLASSIFICATION I

This includes jobs in which required tasks routinely involve a potential for mucous membrane or skin contact with blood, body fluids, tissues or potential spills or splashes. Use of appropriate measures is required for every employee performing these tasks.

_____ CLASSIFICATION II

This includes jobs in which required tasks normally do not involve exposure to blood, body fluids or tissues, but may require performing unplanned Classification I tasks. In these jobs the normal work performance involves no exposure to blood, body fluids or tissues. However, exposure or potential exposure may be required as a condition of employment or class performance.

_____ PERSONNEL NOT COVERED BY THE STANDARD

This includes jobs in which required tasks involve no greater exposure to blood, body fluids, or tissues that would be encountered by a visitor. The normal work/class performance involves no exposure to blood, body fluids, or tissues that would be encountered by a visitor. The normal work/class performance involves no exposure to blood, body fluids, or tissues and the employee can decline to perform tasks which involve a perceived risk without retribution.

NOTE: All employees who do not fit into Classification I or II will fall into a third category not covered by the Standard.
