# **Richmond Community College**

Job Description

## <u>Position Title</u>: Computer Information Technology Instructor

### **General Description:**

An Instructor, under the authority and direction of the Vice President for Instruction/Chief Academic Officer and in cooperation with the Program Lead Instructor and Department Chairperson, is responsible for providing effective instruction in the assigned curriculum area.

## Duties and responsibilities of an Instructor are as follows:

- 1. Teaches students effectively to meet student learning outcomes.
- 2. Holds class sessions as scheduled to meet student learning outcomes.
- 3. Maintains office hours as required by college policy.
- 4. Makes course syllabi and Instructor Course Requirements available to students no later than the first class session or the first date of the course session for Distance Learning courses. Rubrics used to evaluate specific assignments should also be made available to students.
- 5. Provides clearly organized and understandable instruction.
- 6. Provides adequate and timely feedback and evaluation of assignments.
- 7. Maintains a positive attitude in interactions with students and shows a genuine concern for student learning.
- 8. Fulfills obligations in student recruiting, advising, orientation, and registration.
- 9. Assists in the continual evaluation and enhancement of curricula through the planning process and departmental meetings.
- 10. Provides the Vice President for Instruction or his/her designee with updated Instructor's Course Requirements that reflect expected student learning outcomes.
- 11. Submits accurate and complete records and reports in a timely manner in order to provide assessment data for institutional improvement.
- 12. Attends and participates in faculty, advisory, and assigned committee meetings designated to improve curriculum programs.
- 13. Participates in professional development, including back-to-industry, conference, and workshop activities that lead to professional and institutional advancement.
- 14. Accepts other duties as assigned.

## **Position Qualifications:**

**Knowledge, Skills and Abilities:** 

Understanding of and commitment to the unique nature and role of the Institution. Strong oral and written communication skills; ability to work independently with minimal supervision. Able to teach computer and business classes in various delivery modes. Willing to accept day and/or evening teaching assignments and teaching assignments at other locations as needed by the Institution.

### **Minimum Education and Experience:**

Bachelor degree in Business or related field from a regionally accredited institution required. Master's degree with 18 graduate semester hours in computer science or information systems courses preferred. Demonstrated competency in the field through work experience, professional certifications and other related professional activities preferred. At least one year college teaching experience preferred. Demonstrated ability to integrate computers into the instructional environment and on-line teaching experience preferred.

Basis f	for knowledge of job:  hold job now;  supervise job;  other (explain)

# **Exposure Determination for Bloodborne Pathogens**

All position descriptions, including administrative and support personnel, whether paid or volunteer, must be evaluated by the appropriate department chairman/head and a Risk of Exposure to Bloodborne Pathogens Classification I or II be assigned to the position as it applies to each employee's work location. In situations where jobs of the same title entail substantially different categories of risk based on the department to which assigned, job titles will be modified to include the unit name thereby creating a newer, more specific description for that position.

For jobs which fall into Classification II, a list of tasks or procedures which present an occupational exposure to those employees should be prepared and appended to the job description. Assignment of personnel to a new department in the same basic job may necessitate a formal change of job title to ensure that they will receive training according to that job's risk classification. This must be reviewed on an annual basis by department managers for all job titles which they supervise or manage.

#### CLASSIFCATION I

This includes jobs in which required tasks routinely involve a potential for mucous membrane or skin contact with blood, body fluids, tissues or potential spills or splashes. Use of appropriate measures is required for every employee performing these tasks.

#### **CLASSIFICATION II**

This includes jobs in which required tasks normally do not involve exposure to blood, body fluids or tissues, but may require performing unplanned Classification I tasks. In these jobs the normal work performance involves no exposure to blood, body fluids or tissues. However, exposure or potential exposure may be required as a condition of employment or class performance.

#### PERSONNEL NOT COVERED BY THE STANDARD

This includes jobs in which required tasks involve no greater exposure to blood, body fluids, or tissues that would be encountered by a visitor. The normal work/class performance involves no exposure to blood, body fluids, or tissues that would be encountered by a visitor. The normal work/class performance involves no exposure to blood, body fluids, or tissues and the employee can decline to perform tasks which involve a perceived risk without retribution.

NOTE: All employees who do not fit into Classification I or II will fall into a third category not covered by the Standard.
