Richmond Community College

Job Description

Position Title: Automotive Mechanic Instructor-SCI

<u>General Description</u>: The Automotive Repair and Maintenance Instructor, under the authority and direction of the Director of Correctional Programs and HRD and the Vice President for Workforce and Economic Development and in cooperation with the Scotland Correctional Institution's educational department, is responsible for providing effective instruction in the General Automotive Technician program at Scotland Correctional Institution.

Duties and Responsibilities of the Position:

- 1. Provides effective instruction in the area of automotive repair and maintenance.
- 2. Manages classroom and shop operations in the automotive program to include class specific software and the on-site automotive simulator (007).
- 3. Provides adequate preparation of the course material used in the assigned course and utilizes the approved text and/ or assigned materials.
- 4. Assists in the evaluation and implementation of the approved program curriculum (Meineke General Service Technician Curriculum) and instructional processes and strives to meet those standards with available resources.
- 5. Supervises and enforces appropriate safety procedures for laboratories, clinics and other environments, facilities, and operation which are part of the program.
- 6. Provides adequate supervision of students under instructor's assignment and classroom management in conjunction with RCC and Department of Public Safety polices.
- 7. Maintain a current course outline in the Workforce and Economic Development office.
- 8. Provides classroom, laboratory, or related instruction in accordance with approved lesson plan and required program standards.
- 9. Administer proficiency examinations to include the WorkKeys(CRC) and the final certification exam and ensure that standardized testing procedures are adhered to.
- 10. Maintain and submit accurate records and documentation in a timely manner.
- 11. Abide by all directives set forth in the formal agreement between Richmond Community College and Scotland Correctional Institute.
- 12. Keep college administration advised of all matters related to the program.
- 13. Accepts other duties as assigned.

Position Qualifications:

Exposure Determination for Bloodborne Pathogens

All position descriptions, including administrative and support personnel, whether paid or volunteer, must be evaluated by the appropriate department chairman/head and a Risk of Exposure to Bloodborne Pathogens Classification I or II be assigned to the position as it applies to each employee's work location. In situations where jobs of the same title entail substantially different categories of risk based on the department to which assigned, job titles will be modified to include the unit name thereby creating a newer, more specific description for that position.

For jobs which fall into Classification II, a list of tasks or procedures which present an occupational exposure to those employees should be prepared and appended to the job description. Assignment of personnel to a new department in the same basic job may necessitate a formal change of job title to ensure that they will receive training according to that job's risk classification. This must be reviewed on an annual basis by department managers for all job titles which they supervise or manage.

CLASSIFCATION I

This includes jobs in which required tasks routinely involve a potential for mucous membrane or skin contact with blood, body fluids, tissues or potential spills or splashes. Use of appropriate measures is required for every employee performing these tasks.

CLASSIFICATION II

This includes jobs in which required tasks normally do not involve exposure to blood, body fluids or tissues, but may require performing unplanned Classification I tasks. In these jobs the normal work performance involves no exposure to blood, body fluids or tissues. However, exposure or potential exposure may be required as a condition of employment or class performance.

PERSONNEL NOT COVERED BY THE STANDARD

This includes jobs in which required tasks involve no greater exposure to blood, body fluids, or tissues that would be encountered by a visitor. The normal work/class performance involves no exposure to blood, body fluids, or tissues that would be encountered by a visitor. The normal work/class performance involves no exposure to blood, body fluids, or tissues and the employee can decline to perform tasks which involve a perceived risk without retribution.

NOTE: All employees who do not fit into Classification I or II will fall into a third category not covered by the Standard.
